What's New in the AutoCAD?

Utilities: Data-driven drawing environments are here. Create and customize your own floor plans, elevations, and sections with pre-made options. (video: 4:39 min.) New workflows: Integrate with other apps to improve your workflow. Create a portable drawing that takes the place of a clipboard and even synchronizes with other apps, such as email. (video: 3:10 min.) New features: Multiple Layouts in Model: Re-use your model several times and create a template for your next project. Create multiple layouts in a single model and get updates automatically as you make changes to your drawings. (video: 5:32 min.) PDF Search: Find, search, and compare documents in your computer's PDFs with powerful, easy-to-use tools. Quickly spot a document among a collection of pages or see if two documents are the same. (video: 4:05 min.) Support for UNIX OS: AutoCAD now supports Mac OS X as a supported operating system. (video: 2:50 min.) Tools: A wider range of tools for more on-the-go productivity. (video: 5:31 min.) Performance: An engine that is up to 10 times faster than AutoCAD 2019 and more responsive, on-demand. Optimized for today's workflows. (video: 2:53 min.) Support for OS X: Work with AutoCAD seamlessly across OS X and Windows. Export 2D DWG files directly to Macs for more streamlined 2D DWG editing. (video: 4:01 min.) Support for macOS: Autodesk's macOS apps support native features including iCloud, so that users can work with drawings on Macs and iOS devices. See how easy it is to install and manage installations of AutoCAD and the other Autodesk apps. Performance improvements: AutoCAD makes it easier to create more complex drawings with smaller files, fewer layers, and a simpler user interface. Faster performance: The new foundation for AutoCAD's performance provides an increased speed to create, modify, and publish drawings. Performance gains in modeling, editing, and publishing. Improved speed and responsiveness for 3D modeling,
