myGamerInfinity Games are, more than anything, a group of friends that share an obsession for fantasy and other videogames. Their common interest led them to

create their own fantasy game, designed with passion and commitment. When we started we wanted to create something fresh with challenging mechanics, we wanted to have a solid, core game that you can discover, that will keep you coming back. So, we have constructed Arcane Legacy for Android.

About our Name: we wanted a game that included our family heritage with arcane, magic and mythology, while adding the game mechanic where “Legacy” became part of the title.

## **What's new in Crunch Time!:**

**Within When Lola Fabrica first took the stage at this year's Lilith Fair, she had three "perfect children" in tow. Four more followed the next year—in addition to a child with Cracked Apples syndrome. Fabrica's fifth child, a tall blonde with purple eyes and black bangs, had yet to appear, but the number of her "babies" more than quadrupled since the big news. Two of the babies won, and one of them is silent on the subject. The other baby of seven spends the vast majority of his/her free time on the phone, calling and texting other "babies," making them laugh. In short, this is a kid who knows how to party. The MoDo Before she hooked up with crypto-auteur Brannon, my friend Joanna Burchill was a MoDo—only of music. She would arrive on a Saturday afternoon, proofing pages of lyrics. Remember, she was writing songs, not editing them—and she had to do it on a budget. Then she'd take off to—of course—work on more. Call it a Sunday. Sometimes the day would extend into a Sunday night, and she'd call it Monday. She didn't like "work," and what that period of her life lacked in work, it made up for in fun. Wordless love songs. Yard sale godforsaken love songs, that is. "There were no deadlines," she recalls, "not in the traditional sense, anyway." Since that album came out, with "Heartbreak Hotel" as its first single, she's had plenty of deadlines, but she misses the days when they were moonlight work. After her hour of musical labor and small talk, they'd head into a bar and sit at the same corner table they'd congregated at Monday nights for the last ten years. The comity is universal, and besides, "I'd just do it my way." According to MoDo, the Method has a cascade effect. If you keep busy, you don't have time to "fail"—or recognize the stakes of a complete failure. But every setback breeds more setbacks. And besides, heartbreak can produce a big payday.**
