Advance Praise for the Elden Ring Story:

"This game is incredible. To be honest, if World of Warcraft was around back then, it would have never seen the light of day. It had some lag issues when it came out, but now that it's being revamped, I'm not sure how long before it's the best MMORPG of all time. This game is absolutely incredible, easily the best ever! I had to buy a PS3 just for this game's incredible gameplay! It's relatively easy to stay in, and the online gameplay (along with the console/PS3 play is incredibly fun." --Bears0034

The baby blue pillows were the perfect accent for this shirt. It was about \$10, including the pennant, and it was a purchase that comes with great memories.
